

### Lorraine Minister's Development Plan – Feb - Sept 2017 (6ish months)

Learning, skills and goals	How this will be achieved	Resources	Evidence
<p>Improve my social media presence by connecting more frequently with my personal learning network</p>	<ul style="list-style-type: none"> <li>• Share posts where I've found the content valuable, at least 3 or 4 shares per week</li> <li>• Blog or Vlog more regularly at least once a month</li> <li>• Investigate whether it would be worth migrating my blog to Wordpress.org rather than having it on Wordpress.com – then I can use re-sharing content plugins, H5P and other plugins</li> <li>• Become more present by contributing to conversations on social media by adding comments to LinkedIn or Twitter posts or directly in comment section on blog post</li> <li>• Connect and follow more people who are not directly in my field, e.g. marketers, graphic designers, UX designers, people leaders, career coaches and anyone else interesting</li> <li>• Investigate whether joining Instagram and Snapchat would add value to my network</li> </ul>	<ul style="list-style-type: none"> <li>• LinkedIn and Twitter</li> <li>• Follow and read my favourite thought leader blogs</li> <li>• My Wordpress blog site</li> <li>• Taking time to thank people for sharing their expertise</li> </ul>	<p>I've increased the number and frequency of blog posts – use Wordpress stats to see this. Also increased readership and or comments as a result.</p> <p>Increased social media interaction on LinkedIn and Twitter – use stats and history to see this.</p>

<b>Learning, skills and goals</b>	<b>How this will be achieved</b>	<b>Resources</b>	<b>Evidence</b>
Become proficient in remote working tools	<ul style="list-style-type: none"> <li>• Talk with other digital nomads with what tools they find most useful and the related plans</li> <li>• Practice using different tools when doing projects and contracts</li> <li>• Ask customers which tools they prefer to use and practice using these tools</li> <li>• Google tools and ask on forums</li> <li>• Check for digital nomad groups I could join on FB or LinkedIN</li> <li>• Consider using tools I'm already confident with such as Slack, Trello, Office 360, OneNote, Skype. Investigate how I could use these more effectively.</li> </ul>	<ul style="list-style-type: none"> <li>• Expat community in Vietnam</li> <li>• Google</li> <li>• Facebook forums</li> <li>• LinkedIN groups</li> <li>• Download international time converter App</li> <li>• Remote working tools</li> <li>• Search articles on eLearning Guild and other blog posts</li> </ul>	<p>I have tools to manage all conversation and project needs and I can use them competently within projects.</p> <ul style="list-style-type: none"> <li>• I'm able to screen share easily with no technical challenges</li> <li>• Phone calls can be made in and out of Vietnam with minimal cost to me and no cost to my customers</li> <li>• Project timeline and tasks are managed visibly and easily</li> </ul>
Coding – develop confidence with being able to code for different situations	<ul style="list-style-type: none"> <li>• Do Codecademy courses on html and css</li> <li>• Google and read related blogs</li> <li>• Ask my IT codey friends of good resources</li> <li>• Curate content on coding to keep for future reference</li> <li>• Look for opportunities to practice writing/adapting HTML and CSS code</li> </ul>	<ul style="list-style-type: none"> <li>• Codecademy</li> <li>• Google</li> <li>• Social network and personal network</li> <li>• Curation tools</li> <li>• Project opportunities</li> <li>• Lynda.com?</li> </ul>	<ul style="list-style-type: none"> <li>• Writing/adapting HTML code and/or CSS code within projects</li> <li>• Writing/adapting HTML code and/or CSS code in my own resources e.g my blog or creating another website</li> <li>• I'm able to understand more how the code is structured so I can look at a big piece of code and know which parts to change for the outcome I want</li> </ul>

<b>Learning, skills and goals</b>	<b>How this will be achieved</b>	<b>Resources</b>	<b>Evidence</b>
Increase media diversity on my blog site by vlogging (by journaling my learning experience of being a digital nomad)	<ul style="list-style-type: none"> <li>• Find other people who have or are vlogging, what worked and what didn't work?</li> <li>• Vlog about my digital nomad experience and upload into my blog</li> </ul>	<ul style="list-style-type: none"> <li>• Smart phone (camera)</li> <li>• Voice recorder – Zoom</li> <li>• Camtasia</li> <li>• Google, blogs and social network for examples and tips</li> </ul>	Produced and shared vlogs – just do it!
Increase my skills in responsive design and development	<ul style="list-style-type: none"> <li>• Explore and practice using different tools for responsive design such as Adapt, Rise, H5P plugin</li> <li>• Search for good examples of responsive design and identify what elements they have in common. Source examples from responsive websites and responsive eLearning</li> <li>• Curate resources</li> <li>• Reflect and blog about learning and/or challenges</li> </ul>	<ul style="list-style-type: none"> <li>• Responsive design tools</li> <li>• Graphic tools e.g. subscriptions to sites such as eLearning Art, Bigstock</li> <li>• Search articles on eLearning Guild and other blog posts</li> </ul>	Create an output of responsive design (content not from projects or contracts) that can be used for my portfolio
Curating content	<ul style="list-style-type: none"> <li>• Curate websites, conversations, and videos that relate to the skills I'm learning.</li> <li>• Make my curation shareable</li> <li>• Set up a visual curation space for work within Pinterest</li> <li>• Look for examples of how others are curating and developing in the curator role</li> </ul>	<ul style="list-style-type: none"> <li>• Resources found from sites, Google, PLN, Social Media</li> <li>• Curation tool in which to store them that is shareable.</li> <li>• Pinterest for visual design ideas</li> </ul>	<p>Resources are curated and later shared with others.</p> <p>Share examples of how I'm using curated content in learning design</p>
